## CONTAINER STORAGE FACILITY

Building a storage facility can be a long and costly process. Once completed, it is often difficult to add capacity on an “as needed” basis. Interport's shipping container storage facility units are the perfect solution! Our storage containers can help to alleviate difficult buildouts, be customized while your site is being prepared, and add capacity in a quick, cost-effective manner. Additional benefits include:

- 20' or 40' foot shipping container is equal to 160' or 320' square feet of storage capacity
- Turnkey and ready to rent the day it arrives
- No concrete slab or foundation required
- Customized to meet any need or budget
- Hurricane grade roll doors and rain guards
- Permanent, semi-permanent, or moveable dividers available
- 100% relocatable
